Mohammad Shakiba CE 451/551 HW08
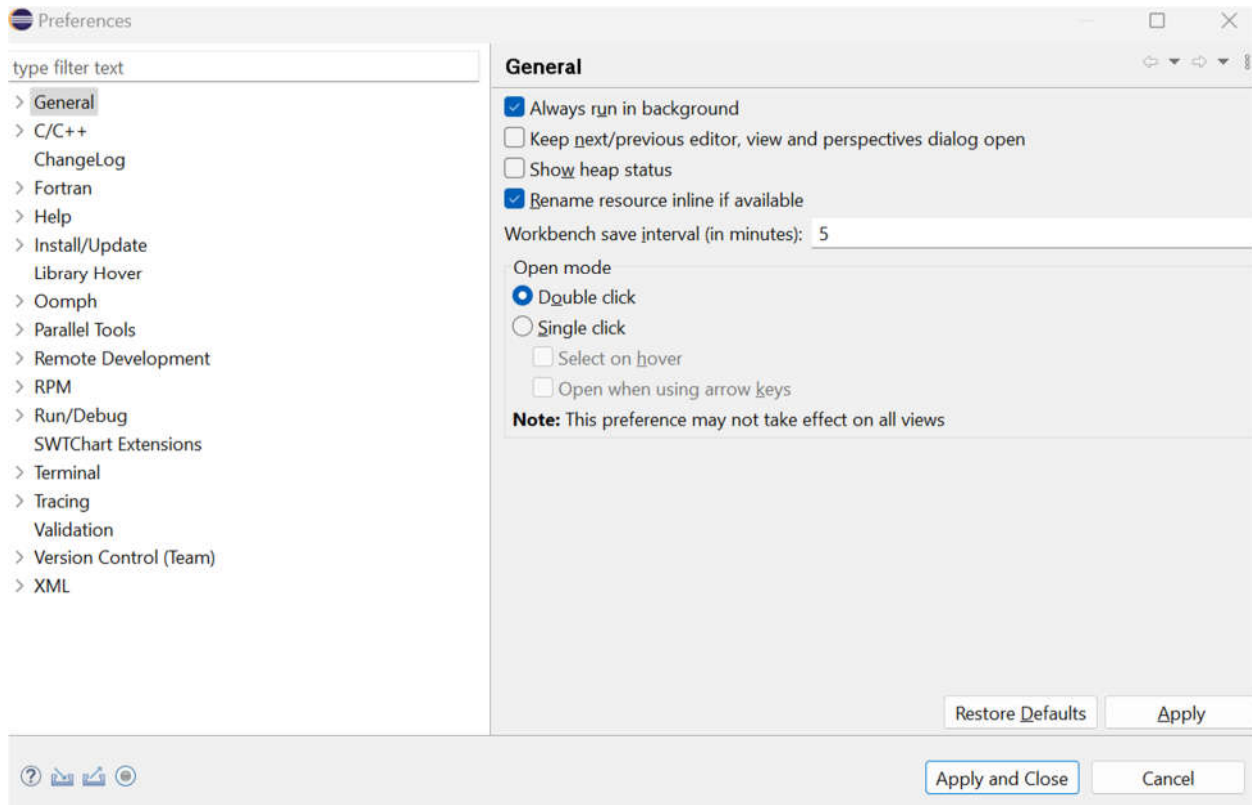

Installation of Eclipse:

I've installed the latest version of the Eclipse as you instructed in the HW08 pdf file but I could not find the PyDev on that.

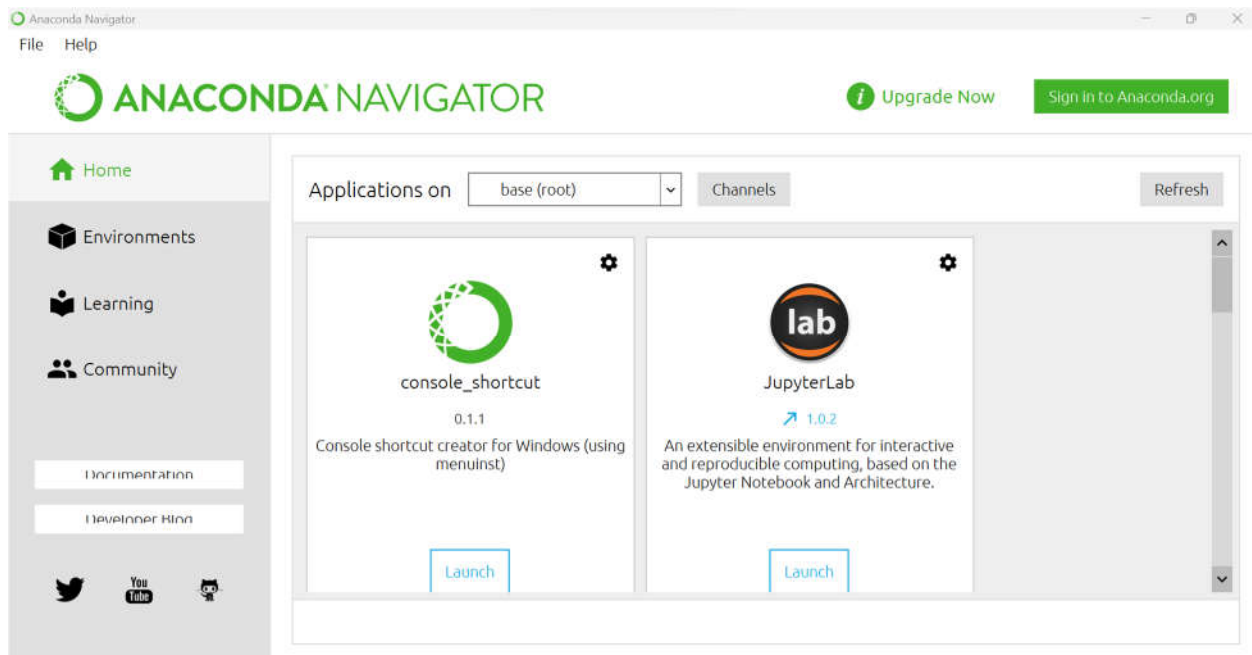

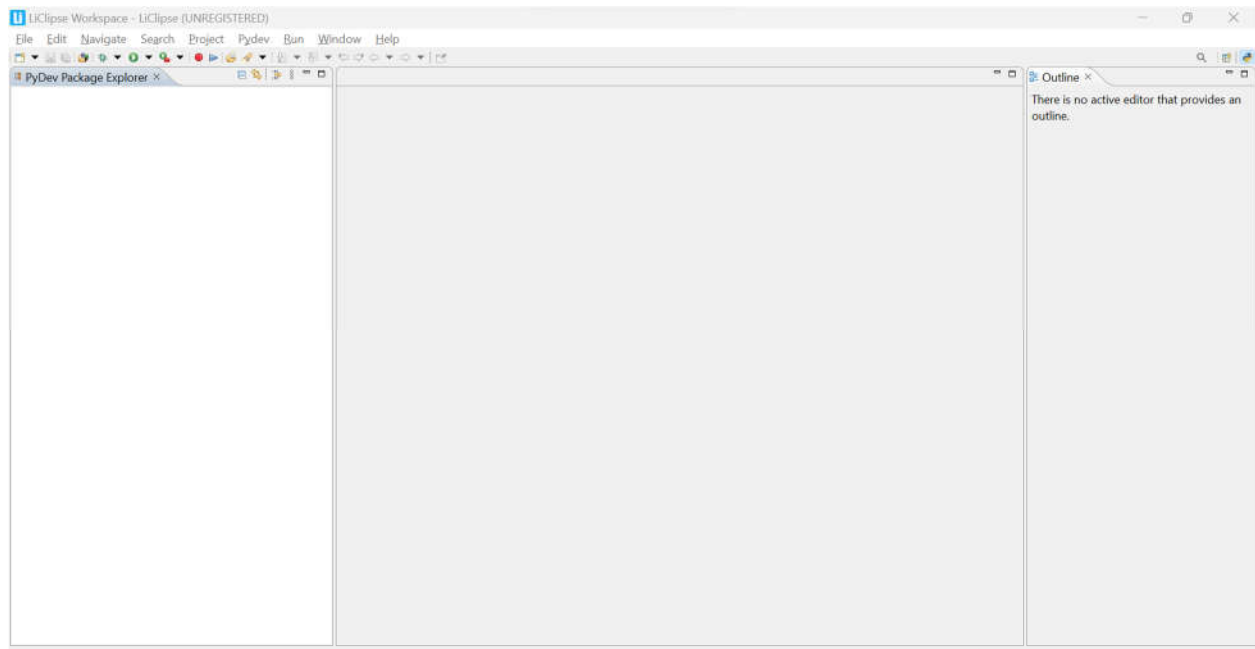

Eclipse Preferences menu:

It does not have PyDev tools in it.

Installation of Anaconda:

I have tried installation of LiClipse as well but I could not follow the instruction to connect it to Anaconda.

Instead I used Jupyter notebook installed by Anaconda:
